WHO WE ARE

Citizens for Educational Excellence (CEE) is a non-profit, independent community-based organization whose mission is to be a catalyst to bring people, information, and resources together to promote outstanding public education for our community.

CEE's vision is for our diverse community to have great confidence in the public education system in Corpus Christi—a system where all children achieve high academic standards and where all students are prepared to successfully continue their education and enter the world of work.

GOALS

Be recognized as the information source for public school issues in the community.

Convene key stakeholders for the purpose of improving local public education.

Coordinate and support initiatives and professional development on school improvement and student success.

ACCOMPLISHMENTS

Since being formed in 2003 by the Corpus Christi Chamber of Commerce Foundation, CEE has produced an annual publication called *Vital Signs* which highlights data about the six local school districts. CEE also has sponsored several community forums which addressed issues of drop-out prevention, high school reform, and teacher quality. CEE's initiative in high school reform dialogue led to a grant being received by CCISD from the Texas High School Project and the Bill and Melinda Gates Foundation to create CCISD's Collegiate High School on the campus of Del Mar College.

CURRENT PROJECTS

CHRISTUS Fund Grant for a Full-Service Community School at Roy Miller High School

Investment Capital Fund (ICF) Grant for High School Reform, Calallen High School

Two-Day Professional Development Workshop on "Professional Learning Communities" for Teachers and Administrators

Regular Superintendent-Principal-Stakeholders' Meetings

Grant Writing for School Improvement Initiatives
